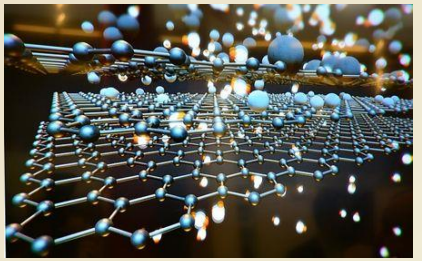
Short Term course

On

TECHNOLOGICAL ADVANCEMENTS IN CHEMICAL ENGINEERING

(27-31 July, 2019)



Organised By

Department of Chemical Engineering,
Bundelkhand Institute of Engineering and Technology, Jhansi
Kanpur Road NH-25, Jhansi (U.P)-284128
Phone: 0510-2980211 http://bietjhs.ac.in

ABOUT THE PROGRAMME

The Short Term Course intends to facilitate up-gradation of knowledge, skills, technology, and other relevant issues to keep pace with the changing scenario in Chemical Engineering field. B.I.E.T. Jhansi usually conduct such programs for faculty members, research scholars and students

- To make them aware about modern teaching tools and methodologies,
- To motivate them to achieve competitive teaching and learning environment, and
- To acquire knowledge about current technological developments in their respective fields

OBJECTIVE

- To build insight of basic process industries and its design.
- Manufacturing technology behind process industry.
- Research advances in chemical engineering.
- Applications of chemical engineering advancement in daily life.
- To aware chemical engineers about the recent advanced topics evolved in chemical engineering.

STC OVERVIEW

- Catalysis technology
- Nanotechnology advances in Chemical Engineering
- Bioenergy and its future perspectives.
- Microfluidics and Bioengineering
- Reactor and Reaction Engineering
- Safety and Hazard Management in an industry
- Advancement in heat and mass transfer
- Computational Fluid Dynamics.
- Advances in specialty chemicals

TARGET PARTICIPANTS

The Short Term Course is recommended for the faculty members, research scholars and students of Chemical Engineering and allied branches who are interested in chemical industry. This course will help them to know the recent trends and technological advancements in the field of Chemical Engineering.

RESOURCE PERSONS

Resource persons will be a blend of experts from the academic institutions, research organizations and industries working in the field of Chemical Engineering
