President, IIC

About Us:

Innovation and Incubation Cell is one of the reputable council of BIET Jhansi. It is acknowledged and funded by the Ministry of Education(MHRD). It was established in our college in the year 2020 and since then it has come a long way in its mission of spreading knowledge among the student community.

Vision And Mission:

Its vision is to be a globally known institution for providing integrated development, mentorship and technical support to young innovators and entrepreneurs to succeed in their vision for the self development and evolution of society. Its mission is to stimulate innovation, entrepreneurship, research and development among the entire student fraternity with participation from academia and industries.

Our Activities:

The Innovation and Incubation Cell coordinates and leverages the synergies of various strands of excellence driving innovation and entrepreneurship at the institute.

It is well recognised by college students, faculty, staff, alumni members and external entrepreneurs in creating successful deep tech environment that benefits to the society at large.

The incubation cell nurtures the technology ventures, development of skills, tech workshops, expert sessions, motivational and guidance sessions via technical events that scales up the mindset of future learners.

INNOVANZA '23

Innovanza is the annual science and technology festival of Bundelkhand Institute of Engineering and Technology, Jhansi conducted under the banner of student organised body Innovation and Incubation Cell that consists outreach programs for the Students of distinct background.

The very first edition of techfest was organised in year 2020 which sets the broad outlines of techfest in the form of competitions, lectures, workshops, and exhibitions which has become a standard feature at this event. It has marked a big milestone in the growth of techfest by its organization at District level.

Students experience an environment of technology that works as a charging force in lifting up their knowledge for their better relation with upcoming challenges and solutions in the practical life.

Events:

Hackathon

It provides a platform to solve pressing issues in our daily life. Both hardware and software based solutions for the problem statements will be entertained. Problem statements will be from prominent government bodies and industry leaders

Open Mic for Ideas

Have any idea in your mind? Not sure if it is market ready and can attract audience. This is a platform for you to present your idea to an audience and get to know your ideas' worth.

B-Plan Competition

Want to develop a Business model for your idea and get instant feedback from industry leaders? INNOVANZA'23 is a one place solution for you.

Pitching Event

Aspiring entrepreneurs pitch their business model to a panel of investors and persuade them to invest in their ideas. This is also a great opportunity for the audience to come across world changing ideas

Expert Talk

The premier collection of ideas and development path provided by the experts to aspiring students. We have experts from both industry and academia.

RoboRace

The autonomous driving competition which includes electrically powered vehicles.

Circuit Cracker

The wide range of utility, study, design and application of devices are tested and brought to optimal use.

..... many more events.

Down The Memory Lane
